WHO IS SPIDER MURPHY?

Safari Surfboards has been a leader in surfboard innovation and quality since 1963. Spider Murphy started shaping for Safari in 1972 and has become synonymous with the success and growth of the Safari brand. A legend in his own right, Spider is still setting the benchmark in the shaping industry today.

If there was a World Championship for surfboard shapers, Spider Murphy would be a multiple title holder.

In his 45 years of shaping he has personally shaped around 70 000 boards for thousands of surfers the world over including 20 World Champions.

MODEL	Loose Evo
DESCRIPTION	One of our most popular models, the Loose Evo is a hybrid design with elements taken from the short board and Minimal. Easy to paddle and quick on the take-off, it features a concave into double concave into Vee along its length to give it a quick turning aggressiveness in the water, particularly off the front foot.
SIZE	6'4 to 8'0
OUTLINE	Semi-full nose
TAIL	Squash, round and rounded pin
CONCAVE	Light single / double
WAVE HEIGHT	Ankle to head high

MODEL	Minimal
DESCRIPTION	The classic Minimal design for easy paddling and loads of stability. Designed for beginners and experienced surfers looking for easy fun, this model has a slight Vee in the nose area which flows into a flat bottom.
SIZE	6'6 to 8'6
OUTLINE	Full nose
TAIL	Squash
CONCAVE	Flat deck into Vee
WAVE HEIGHT	Ankle to head high

MODEL Spider Bomb

DESCRIPTION The Spider Bomb is the result of a two-year development process and is the ultimate fun board for ankle to head-high waves. Easy to paddle and super fast down the line, flat spots are easily navigated with the assistance of finely tuned hydro-channels on the bottom deck. Loose, alive and able to go on anything, this board redefines the term "instant acceleration" within its class.

SIZE 5'4 – 7'6

OUTLINE Wider nose and tail

TAIL Thumb

CONCAVE Single into Channels into Vee

WAVE HEIGHT Ankle high to overhead

MODEL	Spider Glider
DESCRIPTION	The Spider Glider is a fast paddler and generates speed out of the smallest of waves. Designed for flat and weak conditions, it turns much easier than a Minimal and can be enjoyed by anyone.
SIZE	6'4 to 8'0
OUTLINE	Full tight nose with flat rocker
TAIL	Rounded pin
CONCAVE	Slight Vee
WAVE HEIGHT	Ankle to shoulder high
